Covid-19 Risk Assessment

1. Are you currently suffering from any of the following?

   □ High fever (>37.5 degrees Celsius)
   □ Weakness and fatigue
   □ Dry cough
   □ Breathing difficulty

If you have any of the above symptoms:

- If you live alone, stay at home for **7 days** from when your symptoms started.
- If you live with others and you or one of them have symptoms, then **all household members** must stay at home and not leave the house for **14 days**. The 14-day period starts from the day when the first person in the house became ill. For anyone in the household who starts displaying symptoms, they need to stay at home for 7 days from when the symptoms appeared, regardless of what day they are on in the original 14-day isolation period

After 7/14 days, if the person feels better and no longer has a high temperature, they can return to their normal routine. If they have not had any signs of improvement and have not already sought medical advice, they should contact NHS 111 or online at 111.nhs.uk

2. Have you come into close contact with anyone who have been suspected of having COVID-19 Virus or presented with the same conditions above?
   □ No
   □ Yes (Please specify) _____
